

Computer Networks Notes

1. Overview

- Topic:
- Definition:
- Importance:

2. Network Basics

- Types of networks:
- OSI model:
- TCP/IP model:

3. Important Concepts

- IP addressing:
- Subnetting:
- Routing:
- Switching:
- DNS:
- DHCP:

4. Protocols

- HTTP/HTTPS:
- TCP:
- UDP:
- FTP:
- SMTP:
- ICMP:

5. Interview Questions

- Explain OSI layers.
- Difference between TCP and UDP.
- What is DNS?

6. Short Summary

Write brief notes here.
